

The health care sector

Duration: 12 months as per September 2020

Project description

European Solidarity Corps Volunteer

The volunteer will work a health care foundation. He/she will try together with experienced volunteers to improve physical activity for their “clients” (patients). This can be sports in general but also activities at the table such as ball games. Moreover, improving experiences through listening music is important and “snoezelen” therapy. The volunteer will help to organize creative activities as well. This is to improve the domestic feeling and have extra attention for the clients. During the project the activities can be extended according to the talents of the volunteers.

Foundation in the healthcare sector

The foundation is a non-profit (foundation) health care provider in 's-Hertogenbosch and surroundings. With their expertise, they provide care at home and from their residential care centers in 's-Hertogenbosch and Vught. Almost 800 people work at the foundation, plus more than 400 volunteers. The foundation is a healthcare provider in the region with expertise in dealing with unconventional behavior in young and old people with dementia. The foundation intends to give valuable care for their clients, be a pleasant organization for the professional and volunteer to work for. They put effort in their employees and volunteers to connect them, improve the team spirit and take care of personal development.

Profile

volunteer : Open-minded, social, and creative youngsters who like to help people to feel at home. Like to organize and plan events.
